of Engineers ®

Breakout Objectives

- **Clearly define / refine the issue**
- **Consider / formulate options for resolution of the issue**
- **Recommend preferred option (COA)**
- **Determine the lead and supporting organizations**

FEMA

US Army Corps
of Engineers ®

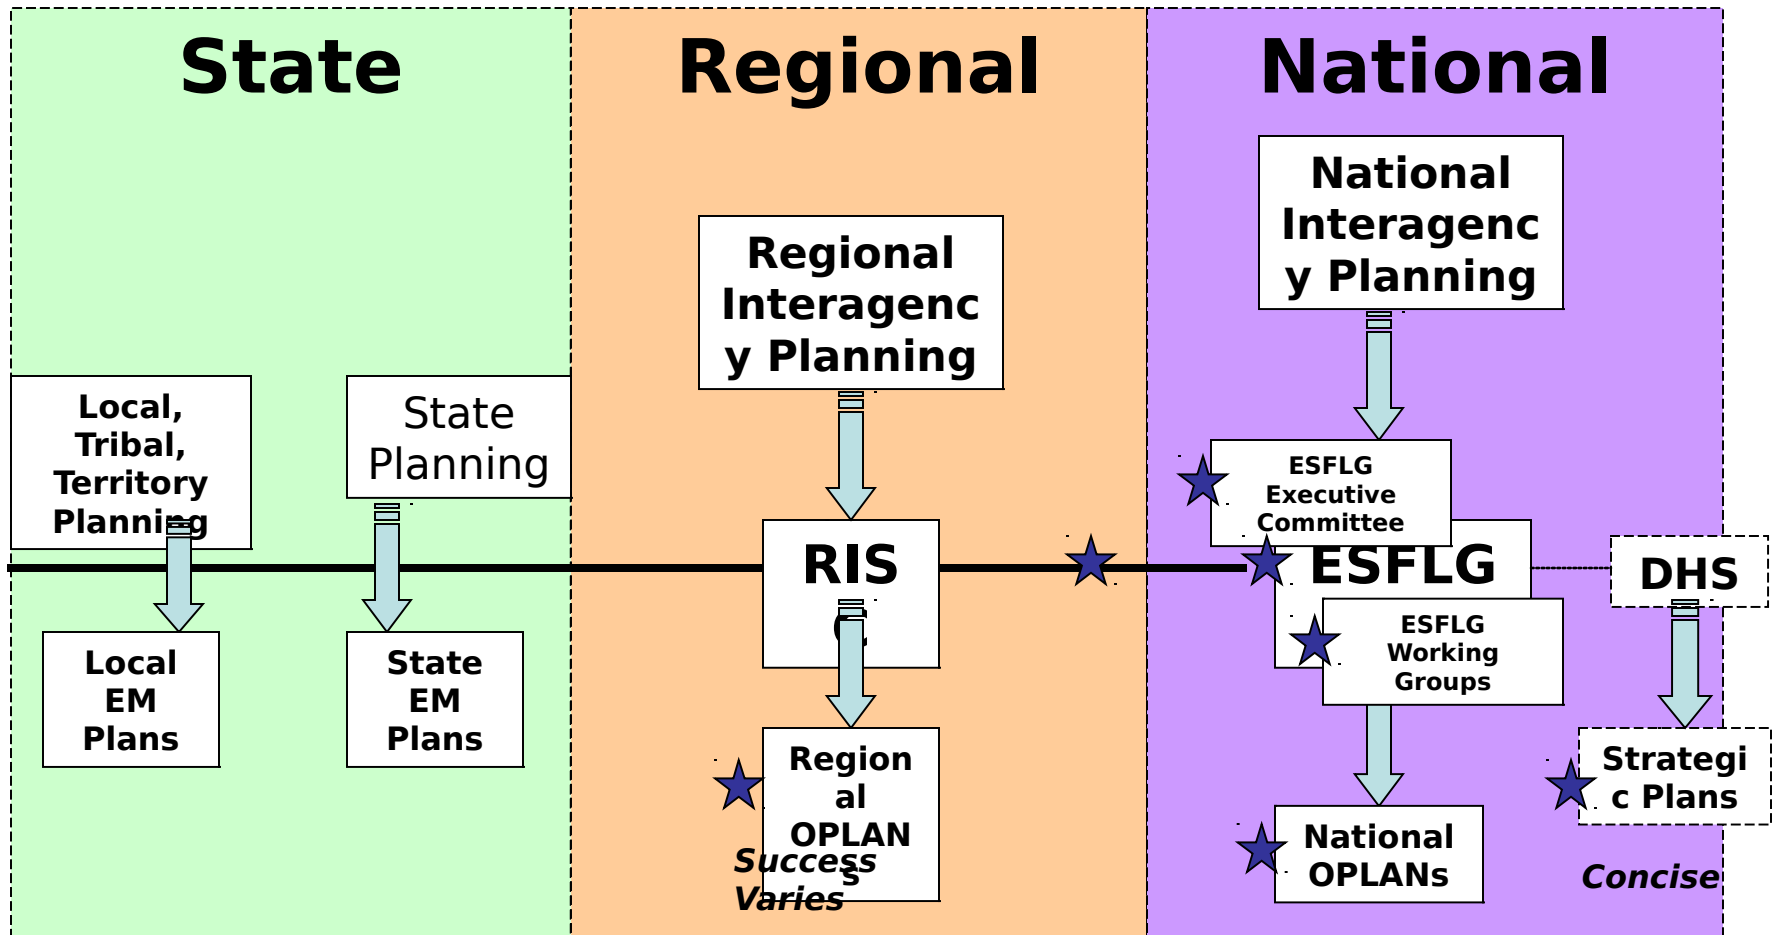

Issue Statement

- ***Effective interagency operational plans are not being developed for federal operations during an incident.***

Major Discussion Themes

- **Interagency planning needs to consider all authorities (more than Stafford Act).**
- **Focus of operational planning shifts over time from national to field.**
- **Regional / National operational planning must focus on “support” to the field.**
- **Planning process and products need to be synchronized (don’t duplicate efforts).**
- **Quality interagency deliberate plans lead to quality action planning (i.e. Hurricane OPLAN)**

Pre-Disaster Interagency Deliberate/Contingency Planning

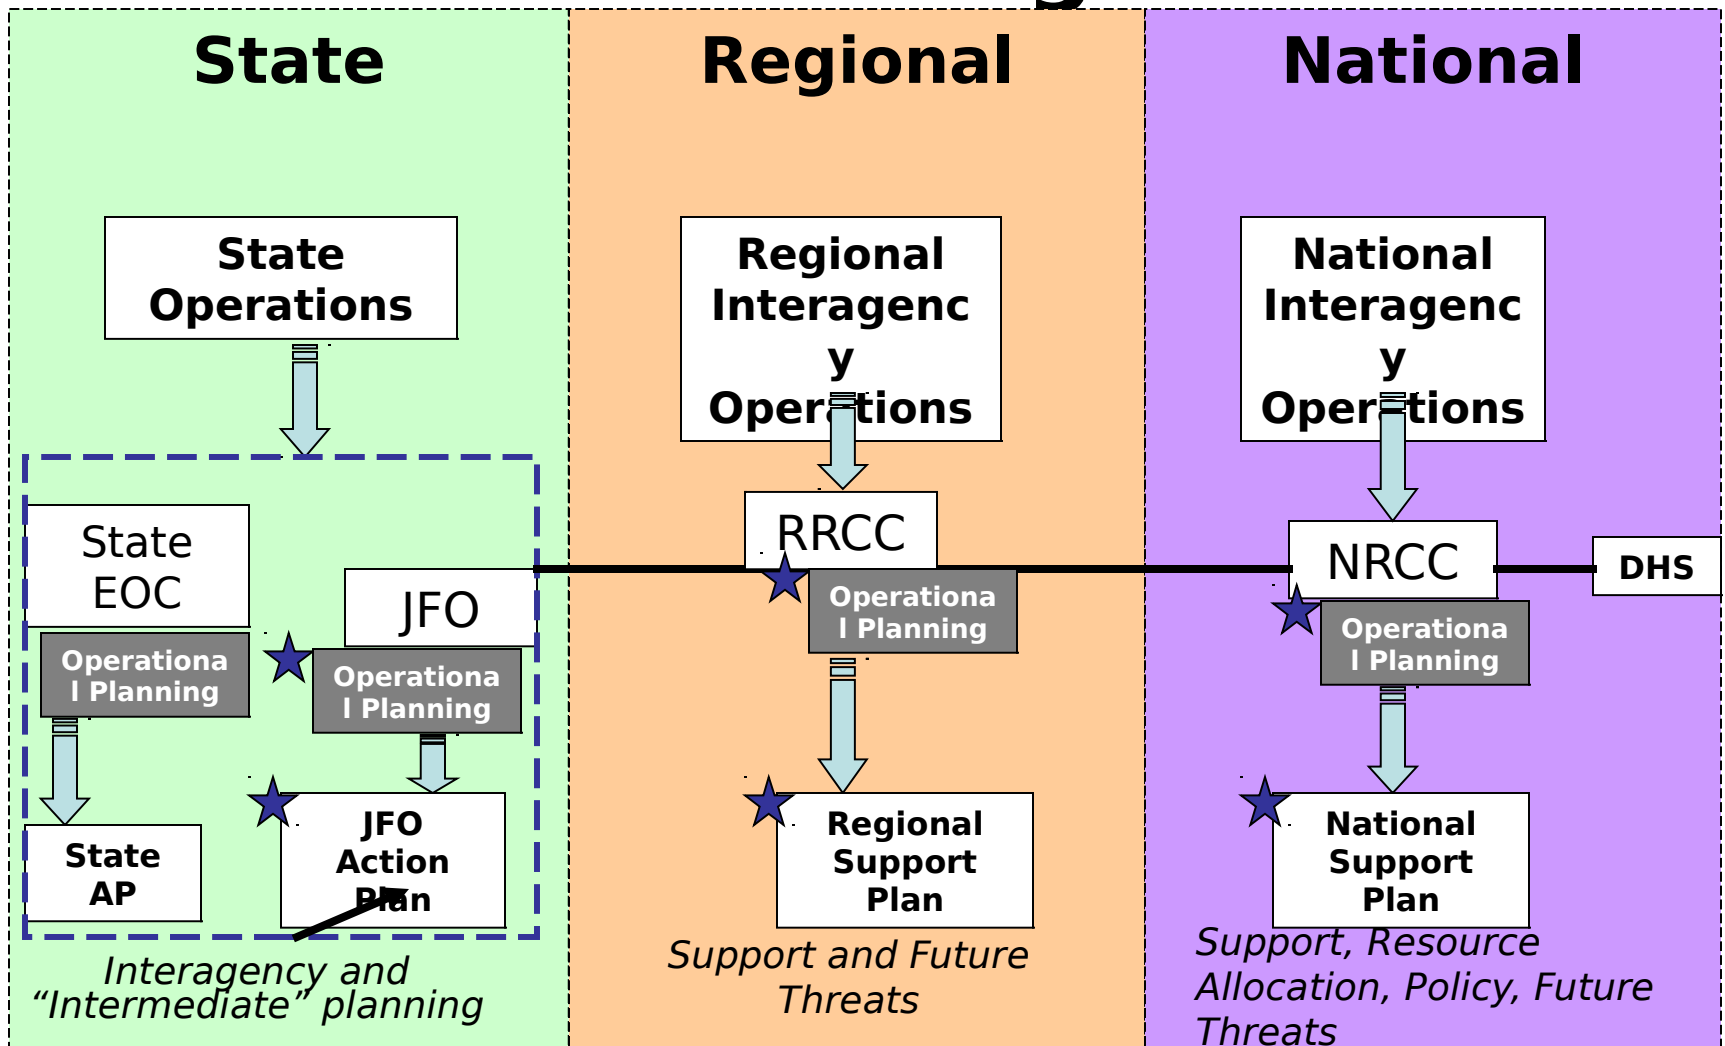

★ = Gap or Issue

ESFLG +

- Establish Charter
- Establish ESFLG “Executive Committee”
- Co-Chair Concept (rotating with OFA’s)
- Interagency Agenda
- ESFLG Action Plan and Working Groups
- Interagency OPLAN Development
- Operational Planning Support to NRCC

Post Disaster Interagency Planning

Challenges

- Need Interagency Planning Doctrine and Policy
 - Identify National/Regional support planning products
 - Provide education / training.
 - Planning Section's role and processes (not just reporting)
- Roles of ESFLG and connections to the RISC
- Interagency commitment to deliberate and action planning
- Need to clarify region's planning role during operations
- Recognize gap in JFO's ability to conduct future planning

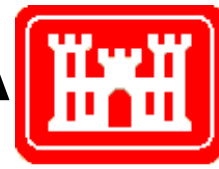

Recommended Courses of Action

- Finalize Interagency Planning framework paper and make recommendations to the ESFLG → *IAP WG and Chair*
- Jan 31, 2008
- Schedule dedicated workshop to review and refine 2008 Hurricane CONOP → *FEMA Op Planning Branch* - Jan / Feb 2008
- Schedule dedicated workshop to develop interagency planning doctrine and policy - in accordance with HSPD-8, Annex I requirements → *FEMA Operations Planning Branch* - Jan / Feb 2008
- Test concepts and 2008 Hurricane CONOP at upcoming SLS focusing on interagency planning processes → *SLS Team* - March 2008
